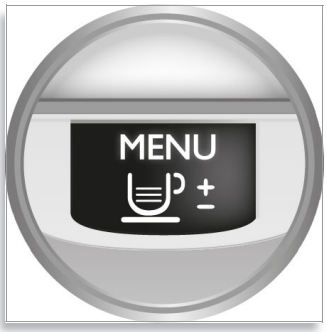
Customization and maintenance



Easy to use, easy to customize and easy to maintain. Let the espresso machine drives your Espresso experience and enjoy direct and clear interaction with it. The customization and maintenance menu allows you to set coffee temperature, descaling cycle guided process, water hardness, water filter installation, Stand-by time and display contrast. Thanks to the automatic and guided descaling cycles, perfect enjoyment every day and maximum longevity for your espresso machine are guaranteed.

Navigation interface with O-le

Navigation interface with O-led display

Latte Perfetto Technology and

Thanks to the fast milk heating system and to the automatic self-cleaning of the circuit at the end of each session, all is left to you is to enjoy the perfect cappuccino and latte macchiato whenever you want.

One touch beverage selection

Make the preparation of your favourite coffee and milk specialties a One Touch matter. With the integrated automatic milk frother, all your favourite beverages are just one touch of a button away!

SBS (Saeco Brewing System)

Saeco exclusively allows you to adjust your espresso's intensity, altering the crema and body structure as it is dispensed. Simply by turning the knob you can prepare the crema exactly according to your taste. A little knob that makes a big difference.

Sleeker look and design

Cutting-edge design and longer-lasting performance are the result of the appliance's stainless steel finishes.
